

Just How Far Can We Go?

A MILEAGE JOURNAL
FROM
BLIXA 6 BOOKS

Make automotive record keeping fun with this cheeky little vehicle mileage log book, perfectly sized to fit in your glove box.

RECORDS ON YOUR OWN TERMS: Whether you need to track actual travel expenses or just mileage for a flat deduction rate, this journal has you covered.

HELPS GET THE BEST TAX DEDUCTIONS: You get 2100 trip entries capture the date, odometer readings, total miles and business purpose—just what you need to document business use for your friendly tax authority.

TRACKS EXPENSES LIKE A PRO: You get 580 entries to capture expenses for fuel, tolls, parking, and a handy “other” category for whatever else comes up.

SIMPLE, EASY & CONVENIENT: At 6x9 inches, the pages are large enough for comfortably filling out your details, while easily fitting in a work bag, center console or the glove compartment of your car.

LOOKS GREAT: The bright, playful design makes it easy to spot amid your car’s papers. Filled with over one hundred pages of elegantly designed and easy to use logs, it keeps your data straight and clear.

ABOUT THE ARTIST: Amy Stafford is an award-winning designer, author and artist. She received her MFA in photography, then working in start-ups and a think tank before becoming an accidental entrepreneur. In 2002 she founded her design business, Blixa 6 Studios in the heart of former East Berlin. Here she creates custom designs and licensable graphics for clients around the world.
